ALDWICKBURY SCHOOL

At Aldwickbury School we offer a high quality education for boys within a happy, challenging, supportive and caring environment. Our ethos encourages the boys to have high aspirations and helps them to confidently make the transition to a wide range of senior schools. Our School is a vibrant and dynamic community, linking consistency and tradition with all that is best about modern educational practice. For over 60 years, we have continued to provide our boys with a comprehensive range of opportunities; developing our modern, fully-resourced facilities including a superb new school hall and music school, which were opened recently.

Aldwickbury focuses on high academic standards, realistic expectations and, as a Christian school, embraces the spiritual, moral, social and cultural development of the boys. The curriculum is broad, balanced and relevant, with a daily programme of Physical Education and Games, as well as specialist teaching. For boys, aged 4-7 years, the purpose-built Pre-Prep Department is a happy, purposeful, friendly environment, with a safe and secure play area within the extensive grounds. The quality of boarding at Aldwickbury is excellent, contributing much to the all-round educational experience offered by the School.
