REALLYMOVING.COM

[reallymoving.com](http://reallymoving.com) is a price comparison and reviews site for people moving home. We provide instant quotes for Conveyancing, Surveys, Removals, and Energy Performance Certificates, offer a Moving Checklist, a Moving Cost Calculator and have thousands of articles offering advice to movers.

reallymoving.com was launched in 1999, and has become the UK's leading provider of instant quotes for home-moving services. We are an independent and privately financed company, majority owned by our management and Directors.

Over the 12 months in 2015 we received 196,011 registrations, and generated 754,188 quotes on behalf of our UK wide network of partners. This represents approximately £110 million worth of work in 12 months. We believe about 7% of the UK's home movers in 2015 received quotes from reallymoving.com.
